

## **GUT & GO COMPACT RULES 2025**

**CARS MUST BE 100% STRIPPED ON THE OUTSIDE. You can leave the front windshield but everything else has to be stripped on the outside.**

1. Any Fwd automobile 112" wheelbase. Any rwd automobile 106" wheelbase. If 4wd must remove one driveshaft
2. Gas tank and battery may be relocated. It can only be under the car if in front of rear suspension area
3. You may have a drivers/ passenger door bar 12" past door post and 1 bar behind the seat, and rollover bar must go straight up and down
4. Any wheel and tire combo is allowed but you cannot reinforce any suspension components (tierods, struts, trailing arms ) so choose wisely!
5. Any OEM Factory bumper, cannot be seam welded or stuffed. In place of this you can have a piece metal minimum 2x2 max 4x4 as a bumper but ends can't be capped. Tubing must be straight & not altered in anyway!!!
6. No plates and factory bumper shocks only!! You can have a 1" weld from your bumper to frame and a 3x3 1/4" plate half on bumper, half on frame to help hood bumper on.
7. Chain or tape your doors, hood, and trunk. No welding at all
8. No creasing quarters or frame rails! Can v your trunk in the center but cannot build a trunk
9. Can raise front suspension and put a bolt for height but absolutely no welding or reinforcing.
10. If you run a gas tank protector it must be 6" away from all sheet metal package tray etc.
11. front end can't be shortened or snub nose
